## Message Description

— Could Jonah have been the most thickheaded and hardhearted man in the Bible? He at least makes the top ten! Jonah 3 ends on a high note, a note of victory, a note of revival, a celebration of the repentance of sinners and the mercy of God. If only the story could have ended there. In next and last chapter, the real Jonah stands up, and it is not pretty. The troubling thing is that if we are honest, we will see a little bit of ourselves in Jonah. So, in this message we will learn how to be the anti-Jonah and have our story end very differently.
