

TBOC TRIP REPORT

February 5-6, 2021 | Dallas, Texas | Pastor Jarvis James

FATHER/SON TRIP

*Chris and Cord Hillis
Mike Lee, Cory and Logan Howard
Lance, Jackson, and Madden Hays
Gregg, Jacob, and Josh Nichols
Zach Gray
Kaleb West*

CLEAN-OUT AND DEMOLITION

The team muscled up and disassembled 5 pianos for disposal as well several other pieces of water-damaged furniture and concrete wall sections removed to widen dormitory entrances!

CEILING TILE INSTALLATION

From years of fluctuating temperatures, moisture, and aging; much of the ceiling needs repair or replacement. This room will soon be a common living area for 4 young mothers and their children.

ELECTRICAL INSTALLATION

With the experience and leadership of Mike, Cory, and Chris; the team was able to install the necessary electrical structure to supply an additional common room as well as the 4 adjacent dormitory spaces!

While the team didn't have the joys of seeing lights on for the first time, Pastor Jarvis completed the final installations a couple of days later!

ROOF REPAIR

While all of the building's severe water leaks had been addressed since TBOC'S opening in Fall 2019, the team was able to make the climb up to the 2 story roof to seal up new leaks and reinforce a couple of weak areas.

DOOR HARDWARE AND FRAMING

With 16 new doors installed in the newly widened dormitory entries; Lance and Jackson took care of the finishing touches!

MEAL TIME

Breakfast, lunch, and dinner were all enjoyed as a team on site at TBOC.

Meal time served as a much needed rest and refuel as well as an opportunity to connect and exchange stories.

AND LOTS OF SWEEPING

Much work creates much mess.

Between piano debris, sawdust, hardware, ceiling particles, tools, and everything in between the team wrapped up a day of hard work with a broom or dustpan in hand.

THANK YOU CHEF ZACH!

A special thanks to college student and youth intern, Zach Gray for preparing and serving the team 3 great meals to keep us moving!
